Annual Listing of Federally Obligated Projects

Federal Fiscal Year 2021

(October 1, 2020 - September 30, 2021)

Tulare County Association of Governments

ABOUT THIS DOCUMENT

The 2021 Annual Listing of Federally Obligated Projects lists the TCAG area programs and projects for which Federal transportation funds have been obligated during Federal fiscal year 2020/21. Table 1 lists the projects obligated using Federal Highway Administration (FHWA) funds and Table 2 lists projects obligated using Federal Transit Administration (FTA) funds.

This report provides an annual update about the progress of projects scheduled for construction or implementation and is useful for understanding the process by which federal investments are made in the communities of this region.

This document is available for downloading on the TCAG website at: www.tularecog.org.

Background

The current transportation bill, FAST Act, requires MPOs to publish an Annual Listing of Obligated Projects (23 CFR 450.334) for which funds have been obligated in the preceding year as a record of project delivery and a progress report for public information and disclosure. In addressing FAST Act requirements, this report lists all transportation projects in the Tulare County Association of Governments' Planning Area that were obligated during Federal Fiscal Year (FFY) 2021 (October 1, 2020 - September 30, 2021).

The County of Tulare and the eight incorporated cities in the county compose the membership of TCAG. TCAG is directed by a Board of Governors. This group is composed of one elected representative from each of the eight cities, the five members of the Board of Supervisors, three members-at-large, and one member from a provider of public transit. TCAG's voting structure is one vote per member.

TCAG is responsible for planning, programming, and coordinating federal transportation investments, along with its partners from the state and federal governments and public transit operators. TCAG develops its programs by working with elected officials, staff from local governments, and the public, through a committee system where the committee and Board discuss various issues and make recommendations. During FFY 2021, TCAG committees included the Policy Advisory Committee, Social Services Transportation Advisory Committee, Active Transportation Advisory Committee, and the Technical Advisory Committee (TAC). Working committees and ad hoc groups are also created and appointed, as needs dictate.

Regional Transportation Plan

The Regional Transportation Plan is a long-range (minimum 20-year) plan that provides a vision for future transportation improvements and investments based on specific transportation goals, objectives, policies and strategies. The RTP is based on federal transportation law requiring comprehensive, cooperative, and continuous transportation planning. TCAG meets these requirements by developing comprehensive transportation plans that include all surface

transportation modes (multi-modal planning), to ensure efficient people and goods movements throughout the region.

The purpose of the RTP is to provide strategic direction for transportation capital investments by assessing regional growth and economic trends. Thus, the RTP helps planners link transportation investments to provide a cohesive, balanced, and multimodal transportation system that will help relieve traffic congestion, improve safety, and provide for economic development.

Federal Transportation Improvement Program

TCAG prepares and maintains the Federal Transportation Improvement Program (FTIP). The FTIP lists of all transportation-related projects requiring federal funding or other approval by the federal transportation agencies. The FTIP also lists non-federal, regionally significant projects for information and air quality modeling purposes.

Projects included in the FTIP are consistent with TCAG's Regional Transportation Plan and are part of the area's overall strategy for providing mobility, congestion relief and reduction of transportation-related air pollution in support of efforts to attain federal air quality standards for the region.

Public Involvement

TCAG aims to proactively engage the public in the regional transportation planning process and embrace federal requirements that MPOs provide the public with complete information, timely public notice, full public access to key decisions, and early and continuing involvement in developing the FTIP, Regional Transportation Plan, and other products. Public involvement strategies are discussed in depth in the Public Participation Plan (PPP), adopted by the TCAG Board on June 15, 2015. The document is available online at www.tularecog.org/ppp/.

Summary of 2021 Annual Listing of Obligations

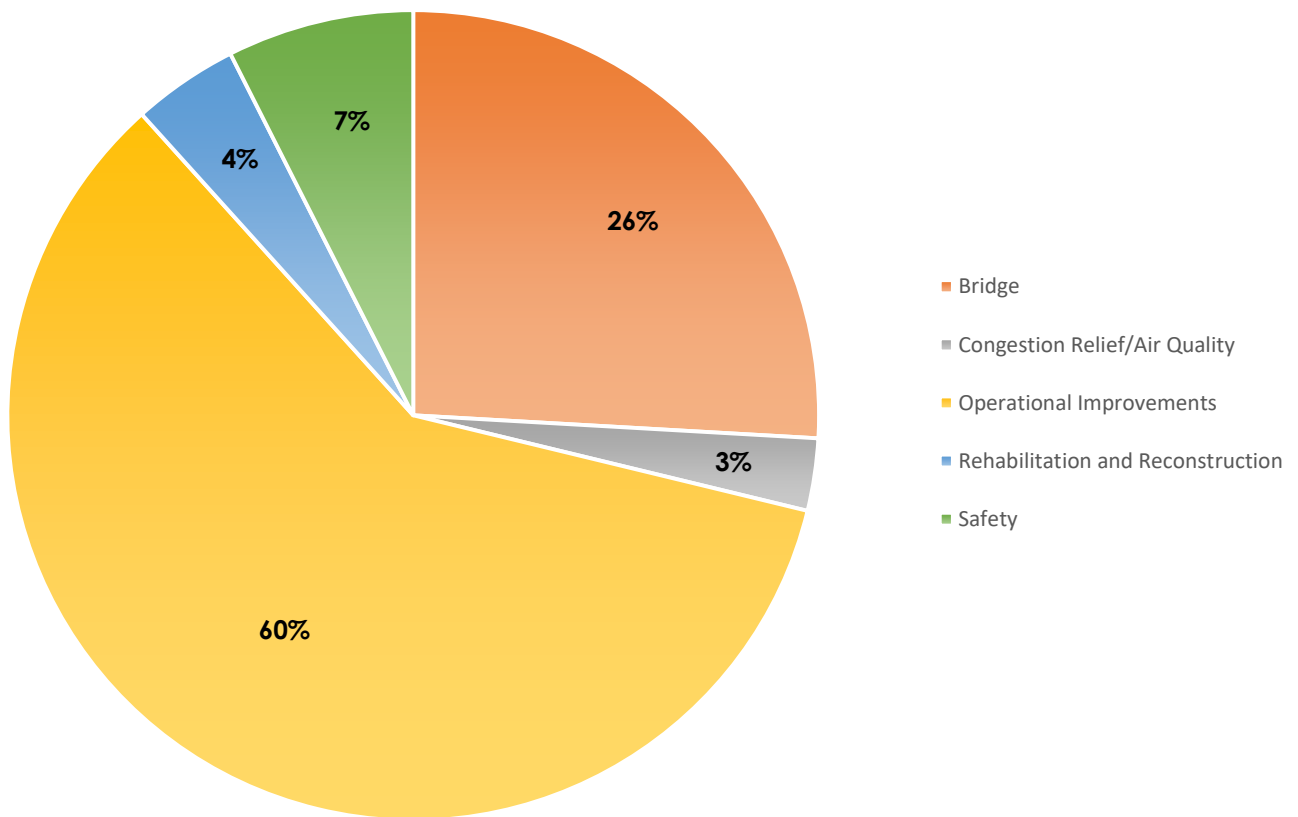

Obligations in FY 2020-21 in the TCAG region totaled approximately \$114 million federal funding. Of the \$114 million, \$95.7 million was obligated by the Federal Highway Administration (FHWA) for highway, local road, bicycle and pedestrian facilities, transportation enhancements, and air quality projects. The remaining balance of \$18.3 million was obligated by the Federal Transit Administration (FTA).

The table and chart below illustrate a breakdown for the following project type categories:

- Bike and Pedestrian
- Bridge
- Congestion Relief/Air Quality

- Operational Improvements
- Rehabilitation and Reconstruction
- Safety
- Vehicle Purchases

FTA Obligations by Project Type	
Bike and Pedestrian	\$ -1,464,202
Bridge	\$ 25,206,438
Congestion Relief/Air Quality	\$ 2,806,105
Operational Improvements	\$ 57,932,221
Rehabilitation and Reconstruction	\$ 4,110,101
Safety	\$ 7,242,662
Vehicle Purchases	\$ -98,817
Total	\$95,734,508

Due to project de-obligations being more than obligations for both the Bike and Pedestrian and Vehicle Purchase project type categories, the amounts shown on the table are negative amounts and are therefore not reflected in the chart above.
