Sacramento, CA 94274-0001

Mr. Weiss and Mr. Anderson:

Enclosed for your consideration is the Tulare County Association of Governments' (TCAG) proposed 2022 Regional Transportation Improvement Program (2020 RTIP). The TCAG Board of Directors adopted the 2022 RTIP at their December 6, 2021 Board meeting. The 2022 RTIP reflects a commitment to deliver needed projects in the Tulare County region to address safety and goods movement. As shown in the following 2022 RTIP summary, State Route 99 continues to be TCAG's top priority and is a major focus in the 2022 RTIP.

Tulare Count	Tulare County 2022 Regional Transportation Improvement Program (RTIP) Funding Proposal Amounts in \$1,000's												
			Proje	ct Totals					Projec	ct Totals k	y Comp	onent	
Project Name	Total	Prior	22/23	23/24	24/25	25/26	26/27	E&P	PS&E	ROW	ROW Sup	CON	CON Sup
SR 99 Tulare City Widening	\$2,150	\$2,150						\$2,150					
SR 65 Realignment and Operational Improvements	\$5,650	\$5,650						\$5,650					
SR 99/Caldwell Avenue Interchange	\$16,600	\$5,000	\$4,600	\$7,000					\$5,000	\$3,000	\$1,600		\$7,000
SR 99/Commercial Avenue Interchange	\$18,900	\$18,900							\$6,000	\$4,000	\$1,500		\$7,400
SR 65 Realignment & Operational Improvements (Oak St Roundabout), Phase 1	\$4,400	\$0		\$2,500			\$1,900		\$2,500				\$1,900
Totals	\$47,700	\$31,700	\$4,600	\$9,500	\$0	\$0	\$1,900	\$7,800	\$13,500	\$7,000	\$3,100	\$0	\$16,300

The 2022 RTIP is consistent with the TCAG's approved 2018 Regional Transportation Plan and Sustainable Communities Strategy. The 2022 RTIP is available on the TCAG's website at: http://www.tularecog.org. The document underwent a 30-day public

Dinuba Exeter Farmersville Lindsay Porterville Tulare Visalia Woodlake County of Tulare

review period from October 12, 2021 to November 12, 2021. A public hearing was held on October 18, 2021.

Should you have any questions, please do not hesitate to call me at 559-623-0450 or by email at tsmalley@tularecog.org.

Sincerely,

Theodore Smalley, Executive Director Tulare County Association of Governments

A. Overview and Schedule

Section 1. Executive Summary

The Tulare County Association of Governments (TCAG) is the regional transportation planning agency (RTPA) and metropolitan planning organization (MPO) for the Tulare County region. Every two years, TCAG prepares a Regional Transportation Improvement Program (RTIP) which programs Tulare County Regional Improvement Program (RIP) fund shares for transportation projects in the Tulare County region. The TCAG Board has committed that all RTIP funding is to be assigned to State Highway projects. In addition, TCAG is one of the few RTPAs that does not take Planning, Programming and Monitoring (PPM) funding from the STIP. In conjunction with the RTIP, Measure R, Tulare County's regional transportation sales tax, is also heavily applied to State Highway System projects.

TCAG works closely with Caltrans District 6 in aligning proposed RTIP projects with the District's project priorities. TCAG's proposed 2022 RTIP is essentially a joint proposal with District 6 in that the funding priorities between the District and TCAG are identical.

On August 18, 2021, the California Transportation Commission (CTC) adopted the 2022 State Transportation Improvement Program (STIP) Fund Estimate (FE). The Tulare region has \$1,975,000 of target share programming capacity in the 2022 STIP. The Tulare region has an estimated \$6,587,000 of maximum share programming capacity. For the 2022 RTIP, TCAG will not be requesting to advance future STIP shares to program projects in the 2022 STIP. The projects proposed for programming are existing projects being carried over from the 2020 STIP. No new projects are proposed.

Section 3. Background of Regional Transportation Improvement Program (RTIP)

A. What is the Regional Transportation Improvement Program?

The Regional Transportation Improvement Program (RTIP) is a program of highway, local road, transit and active transportation projects that a region plans to fund with State and Federal revenue programmed by the California Transportation Commission in the State Transportation Improvement Program (STIP). The RTIP is developed biennially by the regions and is due to the Commission by December 15 of every odd numbered year. The program of projects in the RTIP is a subset of projects in the Regional Transportation Plan (RTP), a federally mandated master transportation plan which guides a region's transportation investments over a 20 to 25 year period. The RTP is based on all reasonably anticipated funding, including federal, state and local sources. Updated every 4 to 5 years, the RTP is developed through an extensive public participation process in the region and reflects the unique mobility, sustainability, and air quality needs of each region.

B. Regional Agency's Historical and Current Approach to developing the RTIP

Programming recommendations in the 2022 RTIP reflect the larger goals of TCAG's adopted 2018 RTP and Sustainable Communities Strategy of improving safety, efficiency of commuting, improving goods movement routes, congestion relief, and incorporation of multiple transportation modes.

TCAG has historically committed all RTIP funding to State Highway projects. In addition, TCAG is one of the few Regional Planning Transportation Agencies (RTPAs) that does not take Planning, Programming and Monitoring funding from the STIP. Tulare County's regional transportation sales tax, Measure R, is also heavily applied to State Highway System projects. The same approach is being proposed for the development of the 2022 RTIP.

Section 4. Completion of Prior RTIP Projects (Required per Section 68)

Project Name and Location	Description	Summary of Improvements/Benefits
Tagus 6-Lane Widening: Near the City of Tulare, from Prosperity Avenue to 1.2 mile south of Avenue 280 (PPNO 6400G)	Widening of approximately 4.6 miles of State Route 99 from four to six lanes.	Improve safety and flow of traffic by adding new traffic lanes

The Tagus 6-Lane Widening project is the continuation of a statewide effort to make the entire length of State Route 99 a six-lane or greater facility. This approximate 4.6 mile segment will pick up where the Middle Segment (Caldwell) 6-Lane (PPNO 6400C) leaves off just south of Visalia and continue 4.6 miles to the City of Tulare. In addition, this project will replace an on-ramp that merges into the number 1 (fast-lane) of northbound traffic. This unsafe on-ramp will be replaced with a flyover access road that will provide access to SR-99 north via the Tagus Ranch interchange. State Route 99 in Tulare County is a vital corridor for goods movement and interregional trips between the large urban centers in Northern and Southern California. Without this needed expansion, the corridor could suffer economically as congestion occurs on a more regular basis thereby impeding the efficient movement of goods up and down the state. Furthermore, heavier traffic congestion will continue to worsen the region's air quality conditions which are expected to improve as circulation conditions improve along the corridor. The programming for construction of this project was approved in the 2020 STIP. Construction is funded by a combination of Caltrans IIP and TCAG RIP funds. The allocation for construction, in the amount of \$73,451,000, was approved by the CTC in August 2020. Construction began in September 2021 and is expected to be complete in July 2023.

Section 5. RTIP Outreach and Participation

A. RTIP Development and Approval Schedule

Action	Date
CTC adopts Fund Estimate and Guidelines	August 18, 2021
Caltrans identifies State Highway Needs	September 15, 2021
Public Notice and Comment Period begins for 2022 Draft RTIP	October 11, 2021
Caltrans submits Draft ITIP	October 15, 2021
Public Hearing for 2022 Draft RTIP	October 18, 2021
CTC ITIP Hearing, South	Oct/Nov, 2021
CTC ITIP Hearing, North	Oct/Nov, 2021
Public Notice and Comment Period ends for 2022 Draft RTIP	November 10, 2021
TCAG adopts 2022 RTIP	December 6, 2021
TCAG submits RTIP to CTC (postmark by)	December 15, 2021
Caltrans submits ITIP to CTC	December 15, 2021
CTC STIP Hearing, North	January 27, 2022
CTC STIP Hearing, South	February 3, 2022
CTC publishes staff recommendations	February 28, 2022
CTC Adopts 2020 STIP	March 23-24, 2022

B. <u>Public Participation/Project Selection Process</u>

The proposed 2022 STIP is consistent with TCAG's adopted 2018 Regional Transportation Plan (RTP) and 2021 Federal Transportation Improvement Program (FTIP). All TCAG RTIP funding goes to the State Highway System. Because of this commitment, TCAG works closely with Caltrans District 6 in determining priorities for funding. This Draft RTIP is a result of this coordination between TCAG and Caltrans.

Listed below are the project selection guidelines used for the development of the proposed draft 2022 RTIP:

- A. All projects must comply with the adopted State STIP Guidelines.
- B. Capacity increasing highway projects must not degrade air quality. This will be determined through the conformity process.
- C. Pre-programming documents (similar to a PSR) are required of all projects.
- D. Projects must be on the State Highway System.
- E. Highway projects will be prioritized using the following data:
 - 1. Projects must be on TCAG's system of Regionally Significant Roadways.
 - 2. A Level of Service Index (LOSI) will be calculated.
 - 3. A Safety Index (SI) will be calculated. (Scoring for rating: LOSI + (SI)(2))
- F. Individual interchanges, over crossings and grade separations will be considered only after a "Regional Significance" has been identified and documented.
- C. Consultation with Caltrans District (Required per Section 17)

Caltrans District 6 serves as an ex-officio member of the TCAG Board. TCAG staff works closely with District 6 to develop RIP and IIP funding strategies address the transportation needs of the region. Quarterly meetings are held to discuss the status of STIP projects and other regional projects for which Caltrans is either the lead agency or provides oversight. During these meetings, TCAG and Caltrans staffs also discuss other funding and partnering opportunities. During the year, TCAG and Caltrans discuss the funding plans for implementing the region's priority projects and discuss ways of jointly funding State Highway projects with ITIP and RTIP funding.

B. 2022 STIP Regional Funding Request

Section 6. 2022 STIP Regional Share and Request for Programming

A. 2022 Regional Fund Share Per 2022 STIP Fund Estimate

Per the 2022 STIP Fund Estimate approved by the CTC on August 18, 2021, the Tulare region has \$1,975,000 of target share programming capacity and \$6,587,000 of maximum share programming capacity. For the 2022 RTIP, TCAG will not be requesting to advance future STIP shares and will not be proposing any new projects. The projects proposed for programming are existing projects being carried over from the 2020 STIP. TCAG will not be requesting the programming of PPM funds The only new programming proposed is the addition \$1m for PS&E in FY 23-24 and \$1.9 million for Construction Support in FY 25/26 for the SR 65 Realignment & Operational Improvements (Oak St Roundabout), Phase 1 project (PPNO 104A).

B. <u>Summary of Requested Programming</u>

Proposal for 2022 STIP	<u>Target</u>			
Project	PPNO	Project Location and Description	Proposal	Proposed New RIP Funds
SR 65 Realignment & Operational Improvements (Oak St Roundabout, Phase 1	0104A	In Tulare County on Route 65 from 0.1 mile south of Mariposa Street to Cedar Avenue; construct roundabout	Add funds for PS&E (in addition to previously programmed funds of \$1.5m) and Construction Support	\$2,900,000

Projects carried over fro	m 2020 R	TIP (Strike thro	ough/underline = change from 202	20 RTIP)
Project	PPNO	Project Location and Description	Proposal	Proposed RIP
Tulare 6-Lane N/S widening Av 200- Prosperity Av SR99 Tulare City Widening	6369	In and near the city of Tulare, from Avenue 200 to Prosperity Avenue. Widen from 4 lanes to 6 lanes.	No change	\$0
Caldwell Interchange SR99/Caldwell Avenue Interchange	6421	On Route 99 in Tulare County between 0.3 miles south of the Avenue 280 (Caldwell Avenue) Overcrossing to 0.4 miles north of the Ave 280 overcrossing. Re-construct Interchange.	No change	\$11,600,000
Commercial Avenue Interchange SR99/Commercial Ave Interchange	6940	Near City of Tulare at Commercial Avenue and State Route 99 between 0.9 mile north of Avenue 200 OC and Paige Avenue OC; Construct new interchange and construct north and south bound auxiliary lanes.	No change	\$0
SR 65 Realignment & Operational Improvements ¹	0104	In Tulare County on Route 65 near Lindsay at various locations from Ave. 224 (Lindmore St.) to west of Cedar Ave. and on Route 198 at junction with Route 245 (Spruce Ave.); Realignment and operational improvements	No change	\$0

¹ Parent project of PPNO 0104A

Section 7. Overview of Other Funding Included With Delivery of Regional Improvement Program (RIP) Projects

Figures shown in \$1,000's

		Other Funding							7 117 \$ 7,000 0
Proposed 2022 RTIP	Total RTIP	ITIP	Private Funds	SR 99 Bond	Measure R	SB1 LPP	Fed Disc. (BUILD)	Future Unfunded Need	Total Project Cost
SR 99 Tulare City Widening (PPNO 6369)	\$2,150	\$6,300	\$0	\$2,070	\$0	0	0	\$212,600	\$223,120
SR 65 Realignment & Operational Improvements (Oak St Roundabout), Phase 1 (PPNO 0104A)	\$4,400	\$0	\$0	\$0	\$17,183	\$0	\$0	\$0	\$21,583
SR 99/Caldwell Avenue Interchange (PPNO 6421)	\$16,600	\$0	\$0	\$0	\$38,000	\$0	\$0	\$0	\$54,600
SR99/Commercial Ave Interchange (PPNO 6940)	\$18,900	\$0	\$9,500	\$0	\$20,400	\$9,000	\$16,000	\$0	\$73,800
SR 65 Realignment and Operational Improvements (PPNO 0104)	\$5,650	\$0	\$0	\$0	\$0	\$0	\$0	\$78,000	\$83,650
Totals	\$47,700	\$6,300	\$9,500	\$2,070	\$68,400	\$9,000	\$16,000	\$194,000	\$352,970

Notes: In addition to the regular STIP projects, Tulare's portion of CRRSAA funding (\$2.972m) is programmed entirely on the SR99 Delano to Pixley widening project (PPNO 7072): \$1.8m for E&P and \$200k for PS&E in FY22/23 and \$972k for Con Support in FY23/24.

PPNO 0104 is the parent project to PPNO 0104A. Two future additional projects are planned from the \$5.65m that was used for E&P on PPNO 0104.

Section 8. Interregional Transportation Improvement Program (ITIP) Funding and Needs

The purpose of the Interregional Transportation Improvement Program (ITIP) is to improve interregional mobility for people and goods in the State of California. As an interregional program, the ITIP is focused on increasing the throughput for highway and rail corridors of strategic importance outside the urbanized areas of the state. A sound transportation network between and connecting urbanized areas ports and borders is vital to the state's economic vitality. The ITIP is prepared in accordance with Government Code Section 14526, Streets and Highways Code Section 164 and the STIP Guidelines. The ITIP is a five-year program managed by Caltrans and funded with 25% of new STIP revenues in each cycle. Developed in cooperation with regional transportation planning agencies to ensure an integrated transportation program, the ITIP promotes the goal of improving interregional mobility and connectivity across California.

It is requested that existing ITIP funding from the 2020 STIP be carried over into the 2022 STIP. No new ITIP funding is being requested.

Section 9. Projects Planned Within Multi-Modal Corridors

There are no projects currently underway along any State Route corridor in Tulare County that could be impacted by projects proposed in the RTIP. Planned projects are shown on Figure 1 below. Four of the five projects proposed for RTIP funding are located on State Route 99. Widening projects along State Route 99 in Tulare County have been in progress since 2013. Widening has been completed on approximately 18 miles of the highway stretching from the Fresno-Tulare County line to south of Caldwell Avenue near Visalia. Upon completion of the Tagus 6-Lane and Tulare City Widening projects, SR-99 will be a six-lane facility from the Fresno-Tulare County line to Avenue 200 south of the City of Tulare (approximately 28 miles). The ultimate plan is to widen SR-99 through the rest of the Tulare County to the Kern County line.

In addition to the widening, there are two interchange projects proposed along State Route 99. Neither project would interfere with or impact the SR-99 widening projects.

Section 10. Highways to Boulevards Conversion Pilot Program

There are no state routes within the Tulare region that would be potential candidates for the highways to boulevards conversion pilot program.

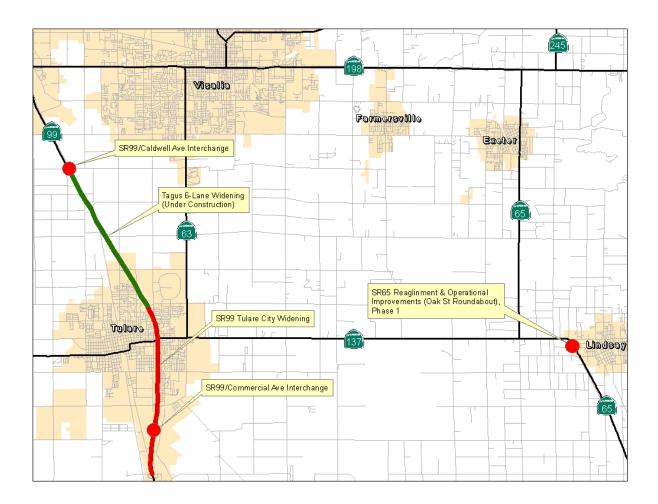

C. Relationship of RTIP to RTP/SCS/APS and Benefits of RTIP

Section 11. Regional Level Performance Evaluation (per Section 19A of the guidelines)

The 2022 RTIP furthers the goals of TCAG's adopted 2018 RTP and Sustainable Communities Strategy. These goals include:

Goal 1. Comprehensive – Provide an efficient, integrated multi-modal regional transportation system for the movement of people and goods that enhances the physical, economic, and social environment in the Tulare County region.

Goal 2. System Performance – Develop an efficient, maintained, and safe circulation network that maximizes circulation, longevity, and fiscal responsibility while minimizing environmental impacts.

Goal 3 – Goods Movement – Provide a transportation system that efficiently and effectively transports goods to, from, within, and through Tulare County.

Goal 4 – Regional Roads and Corridors – Preserve and enhance regional transportation roads and corridors.

A. Regional Level Performance Indicators and Measures (per Appendix B of the STIP Guidelines).

Projects listed in TCAG's 2018 Regional Transportation Plan/Sustainable Community Strategy (RTP/SCS) account for over \$5.7 billion (inflation adjusted) in transportation improvements in the Tulare Region, of which the 2022 RTIP reflects approximately \$466 million. The RTIP is just one of a number of funding sources which are relied upon to support transportation projects within the region. The performance measures listed in Table B1 below identify relevant data and tools available to the extent that may be reported.

The forecasted daily vehicle miles traveled (VMT) per capita with the RTIP projects will decrease by approximately 0.5% compared to the forecasted daily vehicle miles traveled (VMT) per capita without the projects. The performance measures presented in Table B1 shows a reduction in the percent of congested freeway VMT (at or below 35 mph).

Projects programmed in the 2022 RTIP further the goals of TCAG's adopted 2018 RTP/SCS by providing an efficient integrated multi-modal regional transportation system for the movement of people and goods, enhancing regional accessibility and circulation, enhancing safety, improving capacity, and accommodating future transportation needs throughout the Tulare County region.

Evalu	Table B1 Evaluation – Regional Level Performance Indicators and Measures								
Goal	Indicator/Measure	Current System Performance (2042 No Project)	Projected System Performance (2042 RTP/SCS)						
Congestion Reduction	Vehicle Miles Traveled (VMT) per capita.	18.3	18.2						
	Percent of congested freeway VMT (at or below 35 mph)	42.6%	6.0%						
	Commute mode share (travel to work)	18.7%	18.6%						
Economic Vitality	Percent of housing and jobs within 0.5 miles of transit stops with frequent transit service	62.4%	64.5%						
	Mean commute travel time (to work)	16.45 min	16.31 min						
	Farebox recovery ratio								
Environmental Sustainability	Change in acres of important agricultural land outside SOI	2,311	1,518						
	CO ₂ emissions reduction per capita	-18.6%	-17.0%						

Section 12. Regional and Statewide Benefits of RTIP

TCAG's proposed 2022 Draft RTIP provides both regional and statewide benefits. Once completed, the Tagus Six-Lane and Tulare City Widening projects will facilitate the safe and efficient movement of goods and people within the Tulare County region, and between the north and south parts of the State and beyond. State Route 99 is a major land-based shipping route between the international market centers of San Francisco and Los Angeles. As pointed out in *Freight Facts and Figures 2013*, State Route 99 is one of the most heavily traveled non-interstate highways in the nation.² In 2015, the Federal Highway Administration included State Route 99 as part of the highway-only Primary Freight Network under the National Freight Network.³ The purpose of the National Freight Network is to "assist States in strategically directing resources toward improved system performance for efficient movement of freight on the highway portion of the Nation's freight transportation system."⁴

² U.S. Department of Transportation, FHWA, Freight Facts and Figures 2013, p. 36-37

³ U.S. Department of Transportation, FHWA, *National Highway Freight Network Map, http://ops.fhwa.dot.gov/freight/infrastructure/nfn/maps/nhfn_map.htm*

⁴ U.S. Department of Transportation, *Final Designation of the Highway Primary Freight Network Federal Register Notice*, https://www.transportation.gov/sites/dot.gov/files/docs/FHWA-151002-013 F%20PFN.pdf

The Cartmill and Commerical Avenue Interchanges and the State Route 65 operational improvement projects will bring regional benefits. Each of the projects will facilitate regional connections for vehicles, bicyclists and pedestrians, facilitating their safety and mobility as they travel adjacent to the State Route 99 and 65 corridors. When completed, the State Route 65 project increase safety and deliver needed operational improvements along various segments of State Route 65 in the vicinities of Lindsay and Exeter.

D. <u>Performance and Effectiveness of RTIP</u>

Section 13. Evaluation of Cost Effectiveness of RTIP (Required per Section 19)

				ounty Association of Governments

Section 14. Project Specific Evaluation (Required per Section 19D of STIP Guidelines)

Please refer to Section 18 in the Appendices for the project specific benefit evaluations for each of the projects.

E. Detailed Project Information

Section 15. Overview of Projects Programmed with RIP Funding

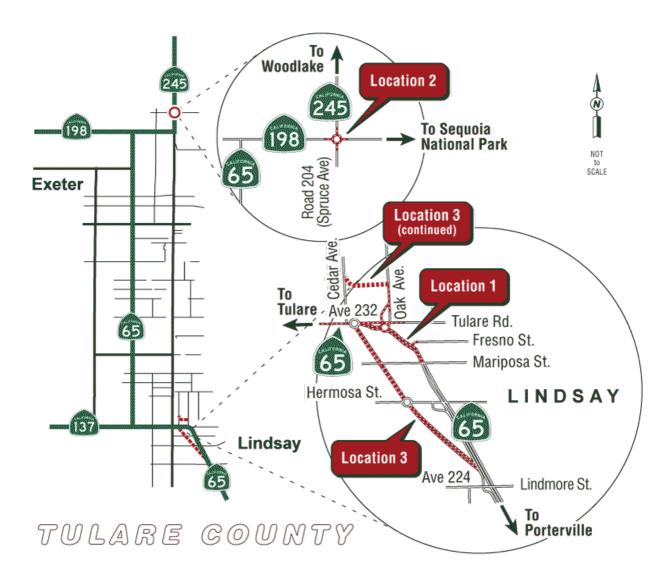

SR99 Tulare City Widening

This project is a continuation of the lane widening and operational improvements on State Route 99. It picks up where the Tagus 6-Lane Widening Project ends at Prosperity Avenue and continues south to Avenue 200 in the southern portion of Tulare. This project will relieve traffic congestion, improve goods movement and passenger travel along State Route 99 by widening in the median from 4 to 6 lanes. In addition, the project will reconstruct the Paige Avenue interchange, including roundabouts on Paige Avenue at the ramp termini, Blackstone Street, and Laspina Street to improve traffic operations.

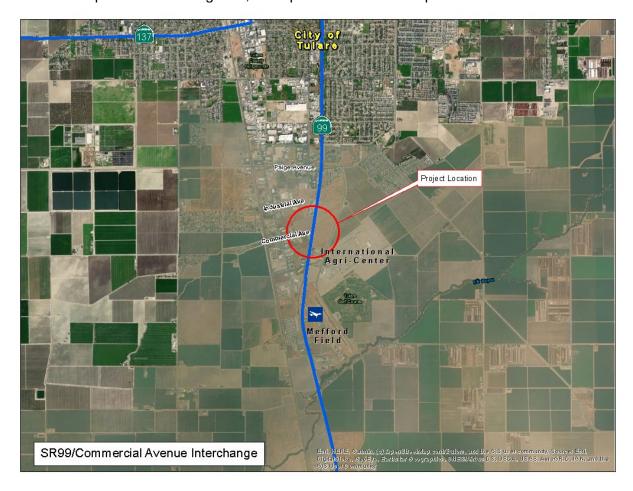

SR65 Realignment & Operational Improvements (PPNO 0104) and the SR65 Realignment & Operational Improvements (Oak St Roundabout), Phase 1 (PPNO 0104A)

The project consists of operational improvements at various locations on State Route 65 in an near the Cities of Lindsay and Exeter. PPNO 0104 is the parent project to PPNO 0104A. Two future projects are planned as shown on the exhibit below. Phase 1 of this project (PPNO 0104A) consists of the construction of a roundabout at the intersection of State Route 65 and Oak Street, which in conjunction with future phases of this project will help improve traffic operations, relieve congestion, and improve safety along this highly traveled corridor. Future phases include the construction of a roundabout at the intersection of State Routes 198 and 245 and the realignment of State Route 65 in the vicinity of the City of Lindsay.

SR99/Commercial Ave Interchange

This project would construct a new interchange and construct north and southbound auxiliary lanes between the project site and Paige Avenue. The project is located on State Route 99 and the existing Commercial Avenue alignment. The purpose of this project is to improve transportation operational performance with this new interchange which is consistent with the goals of Caltrans, TCAG, the City of Tulare and private industry. The project will relieve future traffic congestion on the mainline freeway and local roads, improve safety, enhance the movement of public traffic and goods, and spur economic development.

Caldwell Avenue Interchange

This project would re-construct the existing interchange at State Route 99 and Caldwell Avenue (Avenue 280), just west of the City of Visalia. This is an operational improvement project which will help alleviate future congestion and improve safety and traffic operations on Caldwell Avenue at and near the State Route 99 interchange. It will also provide a safer and more efficient interchange for this location which is planned for extensive development in the near term.

Purpose and Need

Existing interchange at Paige Road will deteriorate to LOS F within the 20 year design period. Improved access to the nearby Agricultural Center Complex is needed to handle the anticipated increase in traffic volumes.

PRG-0010 (REV 08/2020)

PPR ID ePPR-6094-2020-0001 v2

Date 06/24/2021 17:09:00

Additional Information

Reversible Lane Analysis - This is an interchange project, which does not require a reversible lane analysis. Furthermore, mainline does not have enough of a directional split that would warrant an analysis.

Location (Project Limits), Description (Scope of Work)

In and near the City of Tulare, from south of Avenue 200 to just north of Prosperity Avenue. This project will relieve traffic congestion, improve goods movement and passenger travel along State Route 99 by widening in the median from 4 to 6 lanes. In addition the project will reconstruct the Paige Avenue interchange, including roundabouts on Paige Avenue at the ramp termini, Blackstone Street, and Laspina Street to improve traffic operations.

Demand for this facility is increasing due to the regional population growth and recent development in the area. The ADT will nearly double by 2040 and nearly triple by 2060. This project is needed to address a projected capacity problem and low Level of Service. The purpose of this project is to relieve congestion, reduce delays, and increase safety.

This PPR is being updated to reflect the schedule change and to incorporate it into the 2022 STIP.

Programming Change Requested

Modify the PM from 25.4 to 30.5 to 25.2 to 30.6 and add the Paige Ave interchange to the project description.

Reason for Proposed Change

Caltrans and TCAG made a decision to include the Paige Ave interchange as part of this project. This changed the environmental document to an EIR/EIS in addition it required to amend the FTIP. However, due to the Air conformity lock down TCAG was unable to amend the FTIP in time and therefore PA&ED has moved out from the original date.

If proposed change will delay one or more components, clearly explain 1) reason for the delay, 2) cost increase related to the delay, and 3) how cost increase will be funded

The reason for the delay is stated above. Based on the original PA&ED of 5/6/2022 the team still has time on working out how the additional support cost will be paid. At this time no additional source has been determined.

Other Significant Information

SECTION 2 - For SB1 Project Only

Project Amendment Request (Please follow the individual SB1 program guidelines for specific criteria)

This project is amending the 2022 STIP to incorporate the addition of the Paige Ave interchange to the widening project. Additionally the original project limits have been modified from 25.4 to 30.5 to 25.2 to 30.6. The right of way and construction cost, which is a future need, has also increased. This is reflected in the proposed funding plan.

Approvals

I hereby certify that the above information is complete and accurate and all approvals have been obtained for the processing of this amendment request.
